CHAIR

Reminder to complete the OAPSB Membership Survey by June 30, 2022

OAPSB is developing our Strategic Plan for 2023-2025.

Training is one of our key priorities for 2022-2023 and beyond.

We wait collectively for the remaining regulations to be developed under the Community Safety & Policing Act to finalize the training content. As more information is provided, for the remainder of 2022 and into next year we will be working on solidifying an electronic training platform and additional educational opportunities and mediums to support adult learning and prepare for your legislative

responsibilities under the community safety & policing act.

We are **looking for your input** on what you believe are our top priorities for the next three years. Your Board of Directors will be meeting in the first part of July to begin the strategic planning process. [If it is possible to have your responses back by the first week of July, it would be greatly appreciated.](#)

If you are unable to return by that time, we ask that you please send your responses at your earliest convenience so that we can incorporate any pertinent information you provide.

We are asking for **ONE** response per police services board.

Please share this communication with your full board of directors.

Subject: OAPSB Spring Conference - May 26/27, 2022

I was a virtual attendee and provide herein a summary debrief:

- It is imperative that police services share with their governing board operational information related to governance role.
- Police boards in the larger centres are engaged in developing policing strategies. The board works with the service in determining what needs to be done (policies). The service then has sole discretion in how it gets done (procedures). Measuring outcomes is a joint responsibility.
- Recent board member survey related to Equity, Diversity, Inclusion and Anti-racism received only 10 responses (yours truly being one of them). This demonstrates apathy. The survey will be resent hoping for a better response.
- Women and marginalized minorities do not consider police service a safe place to work.
- Human trafficking is an emerging trend. Police services need to be adequately trained to deal with it. Grant funds are available for such training. While indigenous communities represent only 5% of the population, they represent 50% of human trafficking victims.
- Use of special constables is an emerging trend to help offload non-critical tasks from uniformed officers in recognition of the fact that 80% of uniformed police time is spent on non-criminal activities. Use of special constables will be facilitated by the upcoming CSPA.
- Body worn cameras and electronic notebooks are emerging trends.
- There is a perceived 2,500 officer shortage across Ontario.
- SIU lays charges against officers in only 3% of referred cases.
- OIPRD substantiates only 4% of referred complaints.
- OAPSB has a new executive director spearheading OAPSB reorganization and rebranding. A survey will be sent out to boards soliciting feedback on what they need to see from OAPSB.
- OPP have a dedicated team of 12 officers and 12 civilians to combat illegal cannabis. Over the last 3 years, they have seized 33,000 lbs (\$612M street value) of illegal cannabis and made 743 arrests. Most illegal stores have been shut down as part of this effort.

Dear Chief Hansen:

Re: Inquest into the death of: Quinn Emerson MACDOUGALL
Date Death Pronounced: April 3, 2018
OCC Inquest File No.: Q2022-02
Date Inquest Jury Verdict &
Recommendations Received: March 11, 2022

The jury in the inquest into the death of Quinn Emerson MacDougall has made recommendations which your organization may be in a position to implement. Please report back regarding your consideration to implement the recommendations relating to your organization by completing the attached chart, *Responses to Jury Recommendations*. Your response is requested by **December 1, 2022**.

A list of organizations requested to report back is provided.

We are pleased to provide you with a copy of the inquest jury verdict and recommendations. The presiding officer's verdict explanation will follow when it becomes available.

I would like to explain the significance of inquests and consequent recommendations under the *Coroners Act*. An inquest is a public hearing conducted by a presiding officer before a jury of five community members. Inquests are held for the purpose of informing the public about the circumstances of a death. An inquest does not find fault, blame or legal wrongdoing but rather examines the circumstances of one or more deaths and looks for lessons that can be learned from the death(s) that may contribute to a safer future for the living. Juries often make recommendations based on these learned lessons and, while they are not binding, it is hoped that implemented recommendations will prevent future deaths in similar circumstances.

Responses to inquest recommendations will be made public. Therefore, your response should not contain personal identifiers with the exception of identifying the decedent.

Please provide us with the name and contact information of the individual leading your organization's response by August 1, 2022. As well, if you feel any of the recommendations should be directed elsewhere, complete the attached *Contact Information and Recommendation Referrals* form and forward to OCC.inquests@ontario.ca.

As noted above, inquest jury recommendations are not legally binding; however, we trust they will be given careful consideration for implementation and, if not implemented, that your organization provides an explanation.

Thank you for participating in this important process. Please contact me if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'D. Cameron', written in a cursive style.

RECOMMENDATIONS:

8, 9, 10

REC. #	ORGANIZATION'S RESPONSE
8	<p><i>If none already exists, explore with community mental health partners, the feasibility of establishing and adequately resourcing joint mental health-police response teams to assist with Person in Crisis calls for service.</i></p> <p>SPS Comment:</p> <p>A collaborative, joint resourced mental health/police response team was established in August 2019. The Mental Health Engagement and Response Team (MHEART) consists of one full time registered nurse from the Canadian Mental Health Association and one full time police officer from the Sarnia Police Service. They are assigned to work together and respond to calls for service which involve persons with mental health or addiction issues who are in crisis. The unit also conducts follow up outreach from referrals generated by other SPS officers, CMHA staff and Bluewater Health workers.</p> <p>The Sarnia Police Service continues to review its response to persons in crisis including identifying potential new partnerships, process improvements, and needed resources.</p>
9	<p><i>If a police service has a joint mental health-police team, give studied consideration to implementing a police policy that provides, once police officers attending a call identify a potential mental health concern and provided it is safe to do so, that the joint mental health-police team should be engaged.</i></p> <p>SPS Comment:</p> <p>Sarnia Police Service policy SPS-LE-027 outlines the response to persons experiencing a mental health concern. This policy was last updated in January of 2021 and is part of a cyclical policy review cycle.</p> <p>Within the SPS policy, section 2.3 states, "When available, the Mental Health Engagement and Response Team (MHEART) should be dispatched to the call as the secondary unit to assist the originally</p>

	<p>dispatched officer(s). If it is feasible, MHEART may take over the call once the situation is deemed safe to do so.”</p> <p>In addition, section 3.7 includes the option to make referrals to the MHEART team “where a complaint is received regarding a person who is believed to be suffering from a mental illness and there are insufficient grounds to apprehend the person, and the person declines a voluntary admission to a psychiatric facility, the officer shall refer the person’s family or caregivers to the Sarnia-Lambton Victim Services for assistance, advise them to attend the Office of the Justice of the Peace to seek a Form 2 under the Mental Health Act, refer them to the Mental Health Engagement and Response Team (MHEART), the CMHA First Response Team (FRT), the Canadian Mental Health Association, or the Sarnia Lambton Situation Table.”</p> <p>In addition to emergency response, the SPS policy includes responsibilities for the MHEART team in a preventative (non-emergency response) role. Section 9 states, “The responsibility of the Mental Health Engagement and Response Team (MHEART) is to attend to calls involving Persons in Crisis. When not attending calls for service MHEART will conduct outreach for persons not currently in a psychiatric facility and requiring concentrated attention and connection to community supports and resources.” It also includes, “It is the goal of the Mental Health Engagement and Response Team to attempt to intervene and reduce the likelihood of incidents involving emotionally disturbed persons and those suffering mental illness from becoming critical in nature. MHEART will operate collaboratively with our community partners to identify and connect persons with known or suspected mental health issues with community resources.”</p>
10	<p>Explore developing and providing all police officers with additional de-escalation training.</p> <p>SPS Comment:</p> <p>De-escalation training is provided to police officers as part of their annual Use of Force training. Alternatives to force such as tactical communication, and the availability of specialized units such as MHEART are all options available to responding officers. Training components are reviewed annually and additional considerations will continue to be made for mental health related content and scenarios.</p>
